

PROJECT REPORT

ONLINE CAKE BAKERY SHOP

Purpose of the Project

The purpose of an online cake bakery shop is to provide customers with a convenient and accessible way to order and purchase cakes and other baked goods. By having an online presence, customers can browse through a wide

variety of cake options, select the cake they want, and place an order from the comfort of their own house or office.

Online cake bakery shops typically offer a range of cake flavours, design and size to choose from. Customers can also customize their cakes by adding special messages or requesting by specific decorations. In addition, online cake bakery shop often delivery services , making it easy for customers to receive their cakes at a convenient time and location.

Overall, the purpose of an online cake bakery shop is to make the process of ordering and purchasing cakes as easy and convenient as possible for customers while providing them with high-quality baked goods.

Scope of this Project

The scope of an online cake bakery shop is quite broad , as it has the potential to reach a large customer base and offer a wide range of baked goods. With the increasing popularity of online shopping and the convenience it provides, more and more people are turning to online cake bakery shops to order cakes and other baked goods for various occasions.

One of the major advantages of an online cake bakery shop is that it can reach customers from all over the world . As long as the bakery offers delivery services to particular location, customers can order from anywhere and have the cake delivered to their desired location.

Overall, the scope of an online cake bakery shop is quite vast, as it can cater to customers from all over the world, offer a wide variety of baked goods, and provide a personalized shopping experience.

Requirements of Owner of this Project

An cake bakery website is needed for several reasons:

Online Presence: Having a website provides an online presence for the cake bakery. With a website customers can find information about the bakery including its location, hours of operation, menu and pricing. They can also place online orders, which is convenient for customers who cannot visit the bakery in person.

Increase Visibility: A website also increases the visibility of the cake bakery. With the search engines like Google, making it easier for customers to find the bakery online.

Marketing: A website is a powerful marketing tool. The bakery can use its website to promote new products, offers, discounts and run special promotions to attract more customers.

Customers Engagement: A Website allows the cake bakery to engage with customers in a variety of ways. Customers can leave reviews and feedback, sign up for newsletters, and follow the bakery's social media accounts.

Cost-effective: Having a website is cost-effective compared to traditional advertising methods. The bakery can reach a wider audience at a lower cost with a website.

Overall a cake bakery website is a valuable asset that can help attract more customers, increase revenue, and enhance the overall customer experience.

References

Idea Generation: The idea of creating a website came from seeing other websites.

Design Samples: Looked at other websites on the Internet for website sample, analyzed them and then prepared a sample by myself.

Content: Content is the most important things for a website. It has taken fom Google.

Error Solutions: Teachers, Books and Internet are many helpful for error solutions. Some websites are used W3schools, Codepen and GeeksforGeeks.
